## Sustainability

Whenever possible we use materials that are made from recycled products and products that are earth friendly. There are many building products on the market today that not only beautify your home but are much better for the environment. We recycle all materials removed from a home that are accepted at recycle centers.

## Color consultation

Time to paint your house? We not only do the painting for you, we'll sit down with you and find a color scheme that matches your personality and lifestyle. Color is very important and can affect your physical, emotional and spiritual well being. Let us find you the colors that will harmonize and balance your home.
